

— *S* — Analogue audio cable;
— *U* — Control and special cable.

Diagram illustrating the structure of a data entry for a DVI switcher:

- Part No.**: A field for the part number.
- Manufacturer**: A field for the manufacturer.
- Device tag**: A field for the device tag.
- Model**: A field for the model.
- Name**: A field for the name.

The diagram shows a box divided into three horizontal sections. The top section is labeled "Part No." and "Manufacturer". The middle section is labeled "Device tag" and "Model". The bottom section is labeled "Name". The text "DVI switcher 1x2" is in the bottom section. The text "V13" is in the middle section.

1. Mark each cable with its "main marking", with the prefix "A.x." of this section and the room, where "x" is the room number.
