- *N* — Coaxial cable, 50 ohm;
- *A* — Loudspeaker cable.

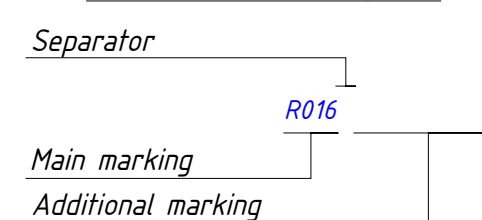

Equipment designation

Connector designation on device

The diagram illustrates the connection between a "Male" and a "Female" connector. On the left, the "Male" connector is shown with a label "DB-15" and a label "Label on device connector". On the right, the "Female" connector is shown with a label "M" and a label "Label on device connector". The connection is labeled "Connector type".

Cable marking

1. Mark each cable with its "main marking" with the prefix "A.213." of this section and the room number.
