Installation and Application

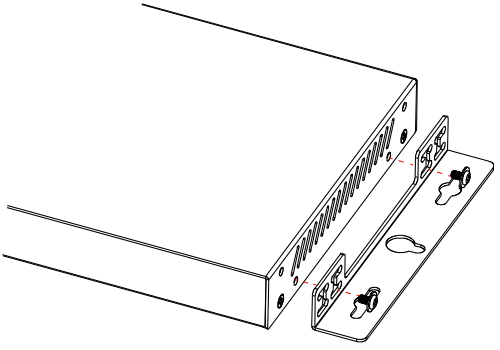

Installation

Warnings:

- Before wiring, disconnect the power from the device.
- During wiring, connect and disconnect the cables gently.

Steps to install the device:

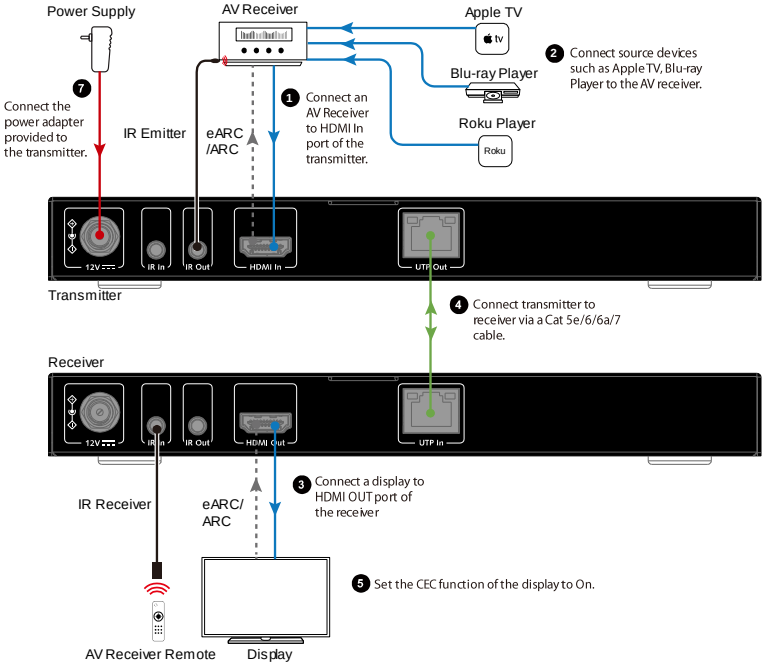

1. Attach the installation bracket to the enclosure using the screws provided in the package separately.
2. The bracket is attached to the enclosure as shown.

3. Repeat the steps from 1 to 2 for the other side of the unit.
4. Attach the brackets to the surface you want to hold the unit against using the screws (provided by others).
5. Repeat the steps from 1 to 4 to install the receiver.

Application

Note: When you want to configure eARC/ARC channel feed by TV: Ensure the connected AV receiver and TV support eARC/ARC function (connect to the eARC/ARC port of TV) and its CEC function should be set to enable.

Switch the AV receiver to eARC/ARC channel, and power on all attached devices. The audio signal of TV through HDMI Out port will be transmitted to the AV receiver connected to HDMI In Port of transmitter.

For additional wiring:

Bi-directional IR pass-through: Connect the provided IR receiver to IR In port of the transmitter/receiver, and connect the provided IR emitter to IR Out port of the receiver/transmitter. You can control the AV Receiver at receiver side or control the display at transmitter side.
