Quick User Guide

Step 1

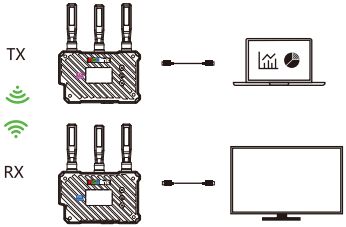

Install the antenna to the TX and RX

Step 2

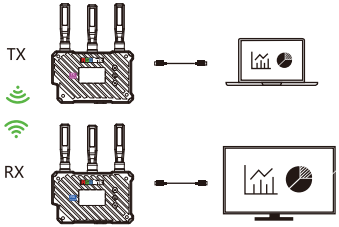

Power on the TX and RX with 5V/2A Cable & Adapter or NP-F Batteries

Step 3

TX connect to video source (such as laptop) with HDMI Cable,
RX connect to TV with HDMI Cable

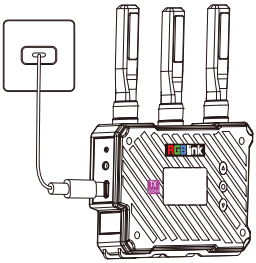

Step 4

wait for a moment for TX and RX to successfuly connect

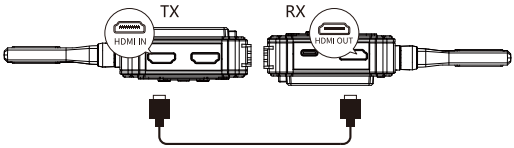

Quick Pairing Guide

Step 1

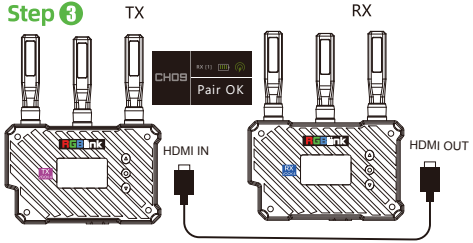

Power on both TX and RX with original 5V/2A cable & adapter or battery;

Step 2

Connect HDMI IN on the TX unit to the HDMI OUT on the RX unit with an HDMI cable

Step 3

Wait 25 seconds, untill both LCD displays "Pair OK" and flashes. Disconnect then power off the device to finish pairing. Reconnect normally for use.

NOTE

- Should TX/ RX not pair, refer to detailed instructions in the User Guide.
- To pair additional RX units with the TX, refer to detailed instructions in the User Guide.
- Be sure other/nearby RX units are NOT powered on when pairing.
- On successful pairing, both units will show the same channel.
