SW-UPG Accessories SW upgrade/programming cable

The **SW-UPG** is a useful tool for the **upgrade of the firmware**. The software upgrade is done using a cable with the **DMX connector** on one side and the **USB connector** on the other side. The **DMX connector is plugged into the device** and therefore comes in **3, 5 and 7-pin versions** to fit into every device. The **USB connector is connected to the computer** and the upgrade is done via **freely downloadable software**.

Contact us for the free software.
